BlackMOA™ Super Grip Tough Gloves

Specification Data Sheet

I. Introduction

The **BlackMOA™ Super Grip Tough Gloves** - Level 1 are designed for optimal performance, featuring a 15-gauge nylon liner with a durable nitrile coating in black with purple accents and yellow trim. Offering an ergonomic fit and enhanced grip, these gloves provide excellent dexterity and flexibility, making them ideal for general handling, light assembly, and maintenance tasks. Certified to EN 388 Level 1, they offer basic protection against abrasion, cuts, tears, and punctures, with a breathable design and secure wrist fit for prolonged comfort and durability.

II. Product Overview

- Excellent dexterity and flexibility for precision tasks
- Breathable liner for prolonged comfort
- Reinforced thumb crotch for added durability
- Elasticated wrist with secure fit
- **Uses:** General handling, light assembly, maintenance
- **Features:** Flexible, durable, secure wrist fit

III. Technical Specifications

A. General Specifications

Specification	Details
Material	High-performance 15-gauge nylon liner with durable nitrile coating
Design	Ergonomic fit with enhanced grip, featuring a nitrile-coated palm and fingers for superior handling in wet and dry conditions
Size Options	Medium, Large, Extra Large
Protection Level	EN 388 Level 1 certified, offering basic protection against abrasion, cuts, tears, and punctures
Brand	BlackMOA™
Application	Ideal for general handling, light assembly, construction, warehousing, and maintenance tasks
Packaging	Sold in Packs of 12 Pairs, or bulk options available

Safety Tip: Always inspect the gloves for tears, punctures, or wear before use, as their EN 388 Level 1 protection is limited to basic hazards. While ideal for general handling and light tasks, avoid using them for heavy-duty applications involving sharp objects, chemicals, or extreme heat, as they may not provide adequate protection. Ensure a proper fit to maintain dexterity and grip, and replace the gloves immediately if damaged to ensure safety
