

# TREKKO - 4G

## MT900

## TRACKERS

COMPREHENSIVE TRACKING AND  
MANAGEMENT CAPABILITIES.

## Trekko 4G MT900

### Key Device & Platform Feature

#### Real-Time Tracking & Monitoring:

Pinpoint your Trekko 4G MT900's exact location live on interactive maps, with comprehensive status details and sharing capabilities.

#### Historical Data & Reporting:

Replay historical routes and access detailed reports on mileage, stops, and ignition events. Export data for analysis and record-keeping.

#### Advanced Features:

Leverage intelligent evaluation tools to assess driving behavior and overall vehicle risk, providing deeper insights for safety and efficiency.

#### Alerts & Notifications:

Receive immediate platform and email notifications for critical events. Customize a wide range of alerts like geofence, overspeed, and low battery for enhanced security.

#### Device & Platform Management:

Quickly identify leaks in refrigeration and AC systems to prevent gas loss and system inefficiency.

# Real-Time Tracking & Monitoring

- ✓ **Live GPS Tracking:** Pinpoint the exact location of your Trekko 4G MT900 in real-time, with updates typically every 10 seconds.
- ✓ **Interactive Maps:** View device location on Google Maps, Satellite, or OSM maps, with real-time traffic information and distance measurement tools.
- ✓ **Device Status:** Instantly see if the device is Online, Moving, Stationary (Dormant), or Offline.
- ✓ **Detailed Information:** Access comprehensive data including current address, speed, battery level, ACC (ignition) status, and satellite signal strength.
- ✓ **Google Street View:** Virtually see the device's surroundings.
- ✓ **Shareable Location:** Easily share a live tracking link with others.

# Alerts & Notifications

- ✓ **Instant Alerts:** Receive immediate notifications on the platform and via email for critical events.
- ✓ **Configurable Alarms:** Customize a wide range of alerts, including:
  - ✓ **Geofence:** Entry or exit from predefined virtual boundaries (circular/polygonal).
  - ✓ **Overspeed:** When the device exceeds a set speed limit.
  - ✓ **Low Battery:** Notification when the MT900 battery is running low.
  - ✓ **Power Cut/Disconnect:** If the main power supply is tampered with.
  - ✓ **Driving Behaviour:** Analysis of Driver's behaviour
  - ✓ **Collision Alarm:** Alert for Collisions
  - ✓ **Fatigue Driving:** Fatigued Driving Alarm
  - ✓ **Door Close/Open Alarms**
- ✓ **ACC (Ignition) On/Off:** Know when the ignition is turned on or off.
- ✓ **Movement/Vibration:** Alert when the stationary vehicle starts moving or detects vibration.
- ✓ **SOS (if applicable):** Emergency alert triggered from the device.
- ✓ **Alarm History:** Review a log of all triggered alarms.

# ALARM & TYPES - Yout Got This ALL...

☐ All

- ☒ Low battery alarm
- ☒ Light Sensor Alarm
- ☒ Signal shielding alarm
- ☒ Into the fence alarm
- ☒ Not Go Home Alarm
- ☒ Mileage Maintenance
- ☒ Power on alarm
- ☒ open cover alarm
- ☒ Collision Alarm
- ☒ Rapid deceleration alarm
- ☒ Sharp right turn warning
- ☒ Ignition On Alarm
- ☒ Oil leakage alarm
- ☒ Vibration alarm
- ☒ Power Cut Alarm
- ☒ False LBS Alarm
- ☒ Out of the area alarm
- ☒ Not Work Alarm
- ☒ Online alarm
- ☒ Power Off Alarm
- ☒ VIN Mismatch
- ☒ Rapid acceleration
- ☒ Sharp turn alarm
- ☒ Upward bump alarm
- ☒ Ignition Off Alarm
- ☒ Refueling Alarm
- ☒ Moving Alarm
- ☒ Over-speed Alarm
- ☒ Out of the fence alarm
- ☒ Into the area alarm
- ☒ Separation alarm
- ☒ Offline timeout alarm
- ☒ Parking Overtime Alarm
- ☒ Flip alarm
- ☒ SOS alarm
- ☒ Sharp left turn warning
- ☒ Road bump alarm
- ☒ Peer alarm
- ☒ Door open reminder

# Historical Data & Reporting

- ✓ **Route History Playback:** Replay historical routes taken by the download track data.
- ✓ **Comprehensive Trip Reports:** Access detailed reports on:
  - ✓ *Mileage covered*
  - ✓ *Overspeed incidents (time, location, speed)*
  - ✓ *Stops/Stays (location, duration)*
  - ✓ *Daily operational summaries*
- ✓ **Ignition (ACC) Reports:** Track engine on/off times and idling duration.
- ✓ **Driving Behavior Analysis:** (Optional) Gain insights into driving patterns like rapid acceleration, harsh braking, and sharp turns.
- ✓ **Data Export:** Download reports in formats like
  - ✓ Excel and PDF for analysis and record-keeping.

# Device & Platform Management

- ✓ **Secure Login:** Access the platform via account login or unique IMEI number.
- ✓ **Multi-Language Support:** Platform available in multiple languages including English, French, and German.
- ✓ **Remote Commands:** (If applicable) Send commands to the device, such as remote restart or fuel cut-off (requires relay installation).
- ✓ **Device Grouping:** Organize multiple Trekko 4G MT900 units for easier management.
- ✓ **Service & Expiration Reminders:** Get notified about upcoming service or subscription expirations.
- ✓ **User & Sub-Account Management:** (If applicable) Create and manage multiple user accounts with varying permission levels.
- ✓ **Customizable Platform Settings:** Adjust speed units (KM/h or MP/h) and displayed information fields.

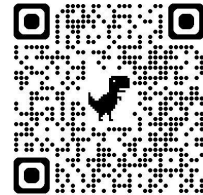

# INTELLIGENT TRACKING WITH 4G DEVICES

By MYSTECH 

(Optional) An intelligent system evaluates driving behavior and vehicle risk based on various parameters.

Go beyond basic tracking with the Trekko 4G MT900's advanced analytical tools. Our intelligent "**Smart Evaluation**" system assesses overall vehicle risk and driver behavior by analyzing comprehensive data like historical performance, alert patterns, and mileage. This delivers actionable insights, empowering you to proactively enhance safety standards and optimize operational efficiency for your assets.
